

British Odyssey 2024

An epic winter ride from Lands End in Cornwall to
John o'Groats in Scotland

(Made by enthusiasts for enthusiasts)

07.-11.12.2024

Have you always followed the motorheads at Europe's toughest classic car rally - the fabulous LEJoG - with their old cars? Have you always thought you would like to experience these adventures yourself? Somewhere in the back of your mind there was always that voice: „Next year that'll be me!“. Well this time there will be no next year, in 2024 the legendary LEJoG rally will not take place and this is where the British Odyssey comes in, a friendship tour organized by Pieter Hennipman and Horst Pokropka, who together have "experienced" and collected more than 25 LEJoG years of expertise and adventures between Cornwall and Scotland.

The British Odyssey is not a rally or race against the clock, no, it is an old fashioned five day orientation tour over a good 2500 km on old original routes of the legendary LEJoG rally, which challenges the navigator, the driver and the well-prepared car, but does not overwhelm them. Five daily legs of between 10 and 12 hours drives will give you insights and memories that are priceless yet affordable. Four overnight stops give the teams the strength and rest they need for the eventful driving days ahead.
